My wife had **uterine cancer 8 years ago.**

**Dr. Milne put her on Poly-MVA back then. She uses it to this day.**

**Poly-MVA has paid off so far for both of us.** We would be afraid to stop, quite frankly. We live a healthy life style going to the gym 4 to 5 times a week, eating organic as much as possible and lots of other supplements along with **Poly-MVA part of our daily practice.**

The staff at AMARC are fantastic and very supportive. Your order always shows up promptly. **Anyone facing health issues should really give it try.**

**5-25-2016**

Petries' are **still taking** Poly and **cancer free.**
